

THE STRATFORD

The apex roof garage, shed or workshop in a traditional post and panel construction and a choice of finishes, heights and colours from Leofric.

The trusty post and panel construction of the Stratford with its solid, robust appearance. The building is available in a grey or brown finish.

Why choose a Stratford?

- Eaves height 6ft 8 (standard), 8ft 3 and 10ft available
- uPVC fascia colour in White as standard, or Black, Rosewood, Woodgrain, Mahogany, or Golden Oak as an optional extra
- White powder coated, 7ft high up and over door with a 4-point locking system on doors up to 10ft wide as standard
- Treated hardwood weather bar fitted to foot of the up & over door to prevent water/leaf ingress
- Panels sealed to base with a waterproof cement fillet or damp proof course strip, to panels when appropriate
- Portal frame construction on the higher buildings for structural rigidity and giving greater space
- Fibre cement corrugated roof available in a choice of Grey or Spanish red finish as standard
- Pedestrian access doors available in steel or timber
- Supplied with a 15 year structural guarantee
